## *De Muller Cabernet Sauvignon 2015*

### Vineyards

A wine produced exclusively from Cabernet Sauvignon vines with the quality that our property Mas de Valls can reach. Our vineyards are grown in lattice work (trellis) and are pruned according to the double cordon royat system. After having achieved the strictest ripening controls, our Cabernet Sauvignon reached its optimum state by end September.

### Production

We carefully fermentate and macerate this extraordinary variety at a controlled temperature around 26°C during 18 days. The malolactic process comes naturally in stainless steel containers, before filling the produce into barrels of French oak, as well as American, where wine will be aged during 12 months.

Once bottled, before being commercialised, it is kept until it reaches its sophisticated bouquet.

### Tasting Notes

Beautiful with its intense picota red colour with wonderful grenate reflections.

A rich and complete aroma where we can discover fruity notes reminding blackberries and blackcurrant together with slight spicy notes of clove and black pepper as well as green pepper.

Wonderfully equilibrated, with a silky and round palate, this full-bodied wine is much elegant and refined. We can appreciate wood fruits notes on a vegetal with spicy tones background ; all that comes from the quality of the oak used. It betters progressively when kept in bottle.

**Appellation**  
DO Tarragona

**Location**  
Reus

**Winery Size**  
140 HA

**Winemaker**  
Jordi Benito

**Varieties**  
100% Cabernet Sauvignon

**Aging**  
12 months in French and American oak barrels

**Age of Vines**  
30 Years
