CASA SANTOS LIMA

## *Hat Trick Lisboa 2014*

### Vineyards

The vineyards are planted in gentle slopes with altitudes between 100 and 220 meters benefiting from an excellent sun exposition and a climate slightly tempered by the nearby Atlantic Ocean, 25 km away from the property. This is one of the richest wine regions due to the diversity of grape varieties, type of soils and climate.

### Production

Previously destemmed the grapes go through low temperature pre-fermentative maceration for 24 hours. The alcoholic fermentation is done in stainless steel vats with temperature control to 26° - 28°C, for 14 days.

### Tasting Notes

A wine full of color and aromatic intensity offering ripe red and black fruit flavors perfectly balanced with notes of spices from an ageing period in oak barrels.

**Appellation**  
Lisboa

**Location**  
Alenquer

**Winery Size**  
220 HA

**Winemaker**  
Diogo Sepúlveda,  
Hermano Veloso
